

FOR INVESTORS & PUBLISHERS

XABAR

An immersive first-person shooter in a post-apocalyptic world: single-player campaign and online multiplayer, cross-platform release.

WHAT SETS IT APART

- Single-player and multiplayer in one game.
- Cross-platform: PC (Windows) and Android, built on Unity 6.
- Founder's genre experience: co-developed SOC_D, a mobile fan port of S.T.A.L.K.E.R. — 100K+ downloads, #2 in Shooters on RuStore (2025).

STATUS & PLANS

The concept is finalized. The demo is in active development, with closed testing underway.

FOUNDER

Yuri Boldyrev — founder of XABAR, Unity developer and game designer, 7+ years in game development. Developer and QA/administration lead of SOC_D, a mobile fan port of S.T.A.L.K.E.R. Winner of the MTUCI and "Ctrl + Shift + Create" game jams (2026) and the MTUCI entrepreneurship training (2025).

Looking for: 3D artist, Audio, Voice acting, VFX, SMM designer, PR & marketing.

THE ASK

- Marketing and advertising support
- Publishing: Steam, Google Play, VK Play, RuStore

Budget / deal format: Discussed individually. A production and marketing budget will follow the demo and team formation.
